

Royal Baking Powder Absolutely Pure

Made from Pure Grape Cream of Tartar

In baking powder Royal is the standard, the powder of highest reputation; found by the United States Government tests of greatest strength and purity.

It renders the food more healthful and palatable and is most economical in practical use.

Housekeepers are sometimes importuned to buy alum powders because they are "cheap." Yet some of the cheapest made powders are sold to consumers at the highest price.

Housekeepers should stop and think. Is it not better to buy the Royal and take no chances—the powder whose goodness and honesty are never questioned?

Is it economy to spoil your digestion by an alum-phosphate or other adulterated powder to save a few pennies?

Complete Market Reports Corrected Each Day Giving the Wholesale Prices of Commodities, Farm Produce and Vegetables.

PORTLAND, Feb. 16.—Egg prices continue to drop in a way that bodes no good for those merchants having eggs on hand. Today fresh ranch eggs were offered at low as 17 cents a dozen. At this price cold storage people bought eggs eagerly the past two years, even paying 17 cents a dozen in the country.

Oregon's Hop Yield. Oregon's hop crop for 1905 has been figured up carefully and found to be 112,000 bales. Up to January 1, 1906, 77,311 bales were shipped out of the State, in January the amount was swelled by 12,910 bales by rail and 1280 by steamer. By February 14th, 3800 bales more were sent out. In the warehouses of the State there are now 16,805 bales stored, a large proportion of which has left the growers' hands. These figures show that there are only a few thousand bales now for sale by the growers. These are being taken up rapidly.
